Run

C Em Am F

Stoplights, breakdown, we cry, last try
Worlds collide, you must decide
Where you want to go in this great big world
Where you want to go in this great big world

Stuck here too long in this sad song
Lost on a street, everyone has vanished and you're all alone
But you don't know where to go
Yeah you're all alone, and you want to go home

Run just as fast as you can
Run, 'til you reach the end
Where the fallen finally land
And your world starts over again
Run

Next page, new day, carried away
Stumble upon the strength to move on
I am not alone in this great big world
You are not alone in this great big world

Run just as fast as you can
Run, 'til you reach the end
Where the fallen finally land
And your world starts over again
Run now don't you look back
Run towards the light straight ahead
Where the lost souls make a beautiful sound
And new life is finally found
Run

You're free, freefalling
A new beginning
This our time

Run just as fast as you can

Run, 'til you reach the end
Where the fallen finally land
Your world starts over again
Run now don't you look back
Run towards the light straight ahead
Where the lost souls make a beautiful sound
And new life is finally found
